As a global service provider, we reflect community diversity in our products and partnerships. We commit to continuous improvement, ensuring DE&I remains central to our vision and mission.

DEI is part of our DNA.

Virtual First

At Somos, we champion a Virtual First strategy, prioritizing virtual interactions—video, audio, and messaging—as our primary modes of collaboration. This approach ensures equal participation and prevents the creation of two classes of employees based on physical presence. While we value virtual engagement for its democratizing effect and flexibility, we also recognize the importance of meaningful and intentional in-person meetings. These gatherings are strategically planned for team-building, customer collaboration and development. Our goal is to build a Virtual First model that supports a balanced, inclusive and effective workplace where every team member can thrive.

Intentional Culture

Our culture is one of our Superpowers, driven by our core values and the diverse backgrounds of our team. Monthly Somosian Updates keep us connected with news on new hires, company achievements, and business developments. Additionally, our optional annual in-person events strengthen relationships and celebrate our collective success.
