Vice President,
Product Management

Today we will cover:

Call Authentication Trust Anchor:
Sixth Report & Order
and
Further Notice of Proposed
Rulemaking

1. What does this R&O and FNPRM mean?
2. How will it impact the industry?
3. What are the next steps in STIR/SHAKEN for the industry?

Since 2017, the Federal Communications Commission has:

- Established SEVEN robocall dockets
- Created the Reassigned Numbers Database (RND)
- Signed TRACED Act into law
- Mandated STIR/SHAKEN
- Established Robocall Mitigation Database (RMD) framework

Federal and State Enforcers
are Moving Rapidly,
Effectively, and
Cooperatively to Protect the
Integrity of Voice
Communications

FCC Order Breakdown & Further Notice of Proposed Rulemaking

So, What Does it Mean?

- Intermediate providers must authenticate unauthenticated SIP/VoIP calls using STIR/SHAKEN
- All providers must submit a plan to the Commission's RMD to include:
 - Their role in the call chain,
 - STIR/SHAKEN implementation obligations,
 - Any investigation into suspected unlawful robocalling
- Downstream providers CANNOT accept traffic from providers not listed in the RMD
- Establishing new enforcement frameworks to hold perpetrators accountable
- Requesting comments on eliminating STIR/SHAKEN for providers that cannot obtain a Service Provider Code token and use of 3rd party caller ID authentication solutions

Welcome Panelists!
