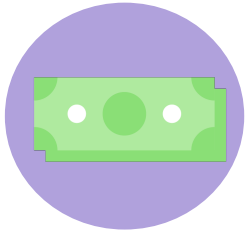
What is KYCT?

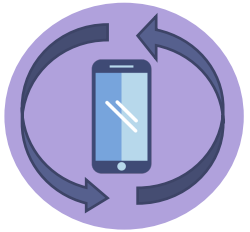
KYCT

Industry Pain Points

Network Congestion



Unpaid Bills



Tracebacks

Regulatory Action

What are regulators doing to mitigate?

RealNumber® DNO

RealNumber® DNO

Now for Voice AND Text

- Allows Resp Orgs a simple way to indicate numbers that do not originate traffic
- Easily consumed and integrated with existing systems for increased fraud detection and analytics
- Over 6 billion Toll-Free and 10-digit local (and counting!) numbers that have already been identified as DNO or DNOT
- Key to helping both voice and mobile service providers comply with regulatory mandates aimed at eliminating unlawful robocalls and robotexts
